(**) If default Cd= 0,25 is chosen, then results from cycling tests are not required. Otherwise either the heating or cooling cycling test value is required

Product Fiche

Model: X3MI ECO 61SH / (X3I ECO PLUS 27 HL WF x 3)

Manufacturer : ARGOCLIMA SPA - via Alfeno Varo, 35 - Alfianello (BS) - Italy;

Sound power level (indoor unit / outdoor unit): 55 / 68 dB(A);

Refrigerant: R32

Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to 675. This means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be 675 times higher than 1 kg of CO₂, over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional.

Cooling mode SEER: 6.1 Energy efficiency class: A++

Pdesignc: 6.1 kW

Annual electricity consumption **350 kWh** per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.

Heating mode Climate type: Average SCOP: 4.0 Energy efficiency class: A+ Pdesignh: 6.1 kW

The back up heating capacity for SCOP calculation: 0.3 kW.

Annual electricity consumption **2135 kWh** per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.
